attended

Victor

Success Story

In partnership with the OSU Graduate College, Victor Baeza lead efforts to launch the OSU Graduate Student Digital Badge Program. The program, which is administered through the OSU Libraries, offers a new approach to documenting and advertising learning that takes place outside of the standard classroom through our programming partners from Career Services, the Writing Center and Institutional Diversity.

“Quote from Victor here,” Victor said.

Matt

Success Story

The Library Student Ambassador program is lead by RLS's Undergraduate Resources Team. The program serves as both an honor & a leadership opportunity for the students who participate. These paid positions are comprised half of some of our best and most en-thusiastic student employees, and half of students who haven't worked for the Library previously, but are power Library users and big fans.

"Our ambassadors are able to transform library spaces and service through their input and interaction with peers while learning valuable information and technology skills that will improve their ability to succeed as students and graduates of Oklahoma State University," Matt Upson, Director of Undergraduate Services, said.
